

**SINGAPORE UNIVERSITY  
OF SOCIAL SCIENCES**

**Office of Career Development**

The Office of Career Development (CareerDev) facilitates the development of work-relevant skills and knowledge to facilitate SUSS's full-time students into post-graduation working life.

The team at CareerDev organises and conducts seminars and workshops, as well as offers small-group and one-on-one consultations, to help students in areas such as job search skills, career skills, interview skills, resume and cover letter writing, and functional and practical areas that are generally not explored in detail in formal academic courses, but are highly relevant and frequently used in business.

CareerDev also oversees the Work Attachment (minimum 24 weeks) and Internship programmes.

## Career Development

For more information about the Career Development, please e-mail us.
